

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE” AND “GEM”, RESPECTIVELY)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors of Credit China Holdings Limited (the “Company” and the “Directors”, respectively) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM (the “GEM Listing Rules”) for the purposes of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief, the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

26. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS

The following table presents financial assets and liabilities measured at fair value in the statement of financial position in accordance with the fair value hierarchy. The hierarchy groups financial assets and liabilities into three levels based on the relative reliability of significant inputs used in measuring the fair value of these financial assets and liabilities. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets and liabilities;

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

Financial assets/ financial liabilities	Fair value	Fair value hierarchy	Valuation technique(s) and key input(s)	Significant unobservable input(s)
As at 30 June 2015				
Derivatives embedded in convertible bond in the statement of financial position	Assets – RMB7,908,000	Level 3	Black-Scholes option pricing model based on the stock price, volatility, dividend yield, risk free rate and option life	Dividend yield taking into account management's expectation of market conditions of specific industries at 8.3%. <i>(Note 1)</i>
Debt component of convertible bond	Asset – RMB33,008,000	Level 3	Present value of the contractually determined stream of future cash flows discounted at the required yield	The required yield was determined with reference to the credit rating of the convertible bond issuer and remaining time to maturity at 13.3%. <i>(Note 2)</i>
Available-to-sale investment (unlisted equity securities)	Assets – RMB50,000,000	Level 3	Market – Based approach based on prices of other business entities in a similar nature changed hands in arm's length transactions	Discount for lack of marketability of 21.1%

As at 31 December 2014				
Debt component of convertible bond	Asset – RMB31,997,000	Level 3	Present value of the contractually determined stream of future cash flows discounted at the required yield	The required yield was determined with reference to the credit rating of the convertible bond issuer and remaining time to maturity at 9.09%. (Note 2)

Notes:

- 1) An increase in the dividend yield used in isolation would result in an increase in the fair value measurement of the derivatives embedded in convertible bond, and vice versa.
- 2) An increase in the interest yield used in isolation would result in a decrease in the fair value measurement of the debt component of the convertible bond, and vice versa.

There were no transfers between levels of fair value hierarchy in current and prior period.

The level in the fair value hierarchy within which the financial asset (liability) is categorised in its entirety is based on the lowest level of input that is significant to the fair value measurement. The financial assets (liabilities) of the Group at fair value in the statement of financial position are grouped into fair value hierarchy as follows:

MANAGEMENT DISCUSSION AND ANALYSIS

Business Review

The Company is a provider of traditional financing services, including entrusted loans, real estate-backed loans, pawn loans, micro-loans and other loans and related financing consultancy services for small and medium-sized enterprises and individuals in the People's Republic of China (the "PRC") and Hong Kong. Since the second half of 2013, the Group has also started an internet business in the PRC as part of its strategic transition into online third party payment business and further expansion into the peer-to-peer ("P2P") loan service platform business.

To enhance the Group's competitiveness in the internet financing industry in the PRC, the Group created a strategic alliance with First P2P Limited, a company which is engaged in operating a P2P platform for internet financing with collateralized assets in the PRC, by acquiring a 10% equity interest in First P2P Limited at a consideration of RMB50.0 million on 27 January 2015.

In the first half of 2015, the Group also completed (1) an acquisition of a 100% equity interest in an online P2P lending business with multiple channels, including a website (www.9888.cn: 金融工場) and a mobile application under the "Financial Workshop" (金融工場) brand; (2) an acquisition of a 49% equity interest in an internet microfinance company registered in Hainan Province, the PRC, which has a licence to offer small loans to enterprises and individuals nation-wide via the internet; and (3) an acquisition of a 51% equity interest in an online share pledge financing services company registered in Zhejiang Province, the PRC, including its online platform "erongniu.com".

As part of our efforts to deepen our focus on internet finance activities, the Group ceased operating a lease financing business in the PRC in March 2015 through disposing of the remaining equity interest in the joint venture which operates it. The Group also completed the disposal of its 66.25% equity interest in Shanghai Feng Zhi Xing in June 2015 with a gain on disposal of approximately RMB42.9 million. The Group's equity interest in Shanghai Feng Zhi Xing was reduced from 80% to 13.75%, and reclassified from being a subsidiary of the Group to an available-for-sale investment.

MANAGEMENT DISCUSSION AND ANALYSIS *(Continued)*

Business Review *(Continued)*

For the six months ended 30 June 2015, the Group's revenue decreased by 18.8%, owing to a significant decrease of 59.7% in the interest income and financial consultancy service income derived from traditional financing services, which is consistent with the Group's strategic transition into internet financing business. The total revenue stream from online third party payment services and P2P loan services generated RMB78.7 million for the period, representing 56.5% of the Group's total revenue. The revenue from the online third party payment services and P2P loan services represented 40.7% and 15.8% of the Group's total revenue, respectively.

Revenue

For the six months ended 30 June 2015, the Group reported revenue of approximately RMB139.3 million, a decrease of 18.8% as compared to approximately RMB171.6 million for the corresponding period last year. The decline in revenue was mainly attributable to (i) the disposal of the major traditional micro-loan finance business in Chongqing City, the PRC on 18 December 2014, which resulted in a 94.9% decrease in revenue from micro loan-financing sector; (ii) a slow-down in the businesses providing traditional financing services, especially a significant drop in the provision of financial consultancy services. However, the income streams from the provision of online third party payment services and P2P loan services recorded strong growth as compared to the corresponding period for 2014.

Entrusted loan and other loan income

Entrusted loan and other loan income includes interest income, financial consultancy service income and gain on transfer of rights on interests on loan receivables, which were derived from the Group's entrusted loans, pawn loans and other loans secured with pledged assets or guarantees. It generated 41.8% of the Group's total revenue and recorded a drop of 43.6% to approximately RMB58.3 million during the period under review as compared to approximately RMB103.4 million in the corresponding period for 2014.

The drop was mainly due to a significant decrease of 81.2% to approximately RMB6.4 million in financial consultancy service income, which resulted from a slow-down in the real property market in the PRC for the six months under review. In addition, the Group has been transitioning its business focus from traditional entrusted loans with real property as collateral to the internet finance business and therefore provides much less financial consultancy service.

MANAGEMENT DISCUSSION AND ANALYSIS *(Continued)*

Revenue *(Continued)*

Micro-loan income

For the period under review, the Group's interest income and financial consultancy service income derived from micro-finance services decreased significantly to approximately RMB2.4 million as compared to approximately RMB46.9 million for the corresponding period for 2014. The significant decline was mainly due to the disposal of a traditional micro-loan finance business in Chongqing, the PRC in December 2014.

Online third party payment service income

In March 2014, the Group's online third party payment business commenced its operation in the provision of payment transactions, payment system consultancy and other services. For the period under review, it generated 40.7% of the Group's total revenue, and the Group's online third party payment service income increased 252.2% to approximately RMB56.7 million as compared to approximately RMB16.1 million for the corresponding period for 2014.

P2P loan service income

During the period under review, the Group's P2P loan service income business recorded approximately RMB21.9 million revenue, representing 15.8% of the Group's total revenue. The P2P loan service income business includes the provision of services in relation to internet housing loan services, automobile loan services and the operation of a P2P financing website and a mobile application with collateralized financial assets (www.9888.cn: 金融工場) which started to contribute to the Group's revenue in April 2014, May 2014 and February 2015, respectively.

Interest expenses

The Group's interest expenses mainly comprised interest due on bank loans, Hong Kong dollar-denominated corporate bonds, Hong Kong dollar-denominated convertible bonds and other borrowings. The Group's interest expenses decreased 13.0% to approximately RMB40.0 million for the period ended 30 June 2015 from approximately RMB46.0 million for the corresponding period for 2014. This was because the Group had repaid high-interest borrowings of RMB153.0 million at an interest rate of 24% per annum at the end of 2014.

MANAGEMENT DISCUSSION AND ANALYSIS *(Continued)*

Other income

The Group's other income mainly comprised convertible bond interest income, bank interest income and government grants. The Group's other income decreased 54.1% to approximately RMB5.1 million for the period ended 30 June 2015 from approximately RMB11.1 million for the corresponding period for 2014. This was because the Group's subsidiaries in Shanghai had received government grants of approximately RMB7.7 million in relation to the encouragement of enterprise expansion for the period ended 30 June 2014.

Administrative and other operating expenses

The Group's administrative and other operating expenses primarily comprised salaries and staff welfare, rental expenses, legal and professional fees, sales and marketing related expenses and impairment on loan receivables. The Group's administrative and other operating expenses decreased 7.4% to approximately RMB67.3 million for the period ended 30 June 2015 from approximately RMB72.7 million for the corresponding period for 2014. The decrease in administrative and other operating expenses was mainly attributable to the disposal of a 60.3% equity interest in China Runking Financing Group Holdings Limited on 18 December 2014.

Share-based payment expenses

Share-based payment expenses of the Group for the reporting period amounted to approximately RMB19.3 million (six months ended 30 June 2014: RMB2.6 million). On 8 June 2015, the Company granted share options under the Share Option Scheme to certain eligible grantees to subscribe for an aggregate of 36,550,000 ordinary shares of the Company.

Profit for the period

The profit attributable to owners of the Company for the reporting period was approximately RMB37.2 million, representing a decrease of approximately 15.8% as compared to approximately RMB44.2 million for the corresponding period for 2014. The decrease was mainly due to a significant decrease in turnover by approximately RMB32.2 million, a decrease in government grants in Shanghai by approximately RMB7.7 million and an increase in share-based payment expenses by RMB16.7 million. During the period under review, the Company recognized a fair value gain of the embedded derivative component of a convertible bond of RMB7.9 million and gain on disposal of subsidiaries of RMB42.5 million.

OUTLOOK

In March 2015, Premier Li Keqiang mentioned the “Internet+” vision in his Work Report during the two sessions, which proved that internet finance had become an important industry in the PRC. It also indicated that the conditions for the development of the internet finance industry is more and more robust. In July 2015, ten major authorities and commissions, including the People’s Bank of China, China Banking Regulatory Commission, China Securities Regulatory Commission, jointly issued the Guiding Opinions On Promoting the Healthy Development Of Internet Finance (《關於促進互聯網金融健康發展的指導意見》), in which the boundaries, business rules and regulatory responsibilities for the internet finance industry are first determined and the concept of “Internet+” was fortified vigorously. The market has regarded the Guiding Opinions as the “basic law for internet finance”, and a blueprint to discipline the industry’s future development. It is considered that the issuance of Guiding Opinions will help to prevent systemic risks and benefit the long-term development of the internet finance industry. Given the very stringent supervision on third-party payment and network lending (P2P) by the Guiding Opinions, a significant industry reform is imminent, and industry concentration will also be further improved and integrated. At the same time, with the gradual implementation of a series of policies under the Guiding Opinions, smaller-scale enterprises will encounter greater impact, while larger-scale enterprises will enjoy more development advantages.

With the facilitation of such an important milestone, Credit China has already stepped into the market much earlier than its competitors and it welcomed ushered in opportunities while facing challenges. In a short span of two years, the Group had built up its strength, consolidated its foundation, developed its network of customers and enjoyed a leading growth in the industry in both number of users and trading volume of First P2P Limited, in which Credit China owns 10% equity interest. In addition, the Group has just completed the share placement to Tandellen Group Limited and Mr. Zhao Chengfu in July. The majority of the net proceeds will be used for enhancing the future development of the internet finance business. To firmly grasp market opportunities, the Group will further accelerate the development and master the two big core platforms of internet finance, i.e. P2P and third-party payment, to expand its business gradually through acquisitions and establishment of strategic cooperation partners.

During the first half of 2015, the Group established a strategic cooperation partnership with Fivestar Holdings Group Co., Ltd. and Aisidi Co., Ltd., whereby joint ventures companies were established one after another to progressively explore the development of the supply chain financing business and identify quality projects within its supply chain. For third party-payment services, the Group will also continue to enhance the development and promotion of mobile terminal function and expand more off-line application scenarios. Meanwhile, the Group will continue to optimize users experience and enhance the core competitive edge of third-party payment platform. At the same time, the Group will continue to identify high quality industries to provide reliable payment services and provide more diversified and more comprehensive regional services through cooperation with professional strategic partners.

OUTLOOK *(Continued)*

The Group's growth is moving forward steadily under the positive development of the internet finance business. In the past 12 months, the Group continued to introduce industry talents to join the Board and management, which included the successive appointments of Mr. Zhang Zhenxin as a Non-executive Director and Mr. Qin Hongwei (秦宏偉) as Chief Operating Officer in July. Both of them have extensive experience and networks in the financial sector and will lead the Group to achieve rapid development in the internet finance industry. Furthermore, the Group announced in June this year that 36,550,000 share options were granted to 115 employees of Credit China and its subsidiaries which can be subscribed for ordinary shares. This can further improve the Group's long-term interests and enable the interests of the directors and employees to be in line with the interests of the Group's shareholders. Looking forward, the Group is confident it can maintain growth of its internet finance business and will capture opportunities brought by the implementation of regulatory measures.

Ltd.*), a company established in the PRC with limited liability and owned by an independent third party (“**Guorong Investment**”). The structured contracts relate to the effective control over and the rights to enjoy the economic benefits in and/or assets of UCF Pay which is principally engaged in the provision of online third-party payment services and prepaid card issuance business in the PRC and which has a third-party payment license issued by the People’s Bank of China. The Group is not able to acquire the equity interests in UCF Pay because foreign invested enterprises in the PRC are not granted approval and licences to engage in online payment services. The structured contracts include an exclusive management and operation contract, an exclusive call option contract, a shareholders' entrustment contract and an equity pledge contract, together with powers of attorney ancillary to such agreements (collectively, the "**Control Contracts**"). Taken as a whole, the Control Contracts allow the Group to effectively control UCF Pay and therefore recognise and receive substantially all of the economic benefits of the business and operations of UCF Pay. The following is a summary of the principal terms of the Control Contracts:

- (a) UCF Pay agreed to (i) engage the Group to provide exclusive and comprehensive management and operation services to UCF Pay; and (ii) pay an annual management service fee to the Group equal to the revenue generated by UCF Pay after deducting all relevant costs and expenses (including taxes), losses and related reserve funds;
- (b) UVG Group and Guorong Investment (i) have granted the Group the exclusive right to acquire any or all the equity interests in UCF Pay at the lowest price as and when permitted under the relevant PRC laws and regulations on the condition that such acquisition shall be in compliance with relevant PRC laws and regulations; (ii) have pledged their entire equity interests in UCF Pay to the Group for the purpose of securing the performance of their and UCF Pay's respective contractual obligations under the Control Contracts; and (iii) have entrusted the Group or its designated party to exercise all their respective rights as shareholders of UCF Pay including but not limited to the rights to vote in a shareholders' meeting, sign shareholders' resolutions and file documents with the relevant registration authority and the rights to receive the remaining assets of UCF Pay upon the winding-up of UCF Pay. The Control Contracts shall be legally binding on the successors of UVG Group and Guorong Investment in the event of any change in their holding of the "equity interest of UCF Pay due to bankruptcy, winding-up, termination of operation or any other reason."; and

- (c) in case of a dispute in relation to the Control Contracts, the parties to the Control Contracts shall negotiate in good faith to resolve the dispute. If the dispute cannot be settled through negotiation within 45 days, any party may refer the dispute to the Dalian Arbitration Commission for an arbitration award which shall be final and binding on the parties concerned. In addition, pursuant to the terms of the Control Contracts, the Dalian Arbitration Commission has the power to effect actions or arbitral awards on any shares, assets or business of UCF Pay, including the grant of compensation orders, restraining orders or winding up order. Such arbitration awards will be enforced by the People's Courts of the PRC with jurisdiction.

The Control Contracts are valid for a term of ten years commencing on 21 November 2013 and may be extended for such further ten-year periods as may be requested by the Group. The Group is entitled to effect the early termination of the Control Contracts at its own discretion. Neither UCF Pay nor its shareholders may vary or terminate the Control Contracts. There were no material changes to the Control Contracts and/or the circumstances under which they were adopted, nor was there any unwinding of them or of a failure to do the same due to the restrictions that led to their adoption being removed. The Group intends to unwind the Control Contracts arrangement and directly hold the equity interests of UCF Pay when the relevant restrictions no longer exist. For further details, including the risks associated with the Control Contracts as well as actions taken by the Group to mitigate such risks, please refer to the Company's announcement dated 9 October 2013.

FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS AND EXPECTED SOURCES OF FUNDING

Save as disclosed under “Business Review” and “Outlook” in this report, the Company has no specific future plans for material investments or capital assets as at 30 June 2015.

INTERIM DIVIDEND

The Group has resolved not to pay interim dividend for the six months ended 30 June 2015 (six months ended 30 June 2014: Nil).

CONTINGENT LIABILITIES

CAPITAL COMMITMENTS

As at 30 June 2015, the Group had capital expenditure contracted for but not provided for in its financial statements of approximately RMB10.0 million (31 December 2014: RMB5.8 million).

FOREIGN EXCHANGE EXPOSURE

The Group operates mainly in Hong Kong and the PRC. For its operations in Hong Kong, most of the transactions are denominated in Hong Kong dollars and U.S. dollars. The exchange rate of U.S. dollars against Hong Kong dollars is relatively stable and the related currency exchange risk is considered minimal. For operations in the PRC, most of the Group’s transactions are denominated in Renminbi. Given the floating level of Renminbi against Hong Kong dollars during the period under review, no financial instrument was used for hedging purposes.

FOREIGN EXCHANGE EXPOSURE *(Continued)*

The Group is mainly exposed to the fluctuation of Hong Kong dollars against Renminbi as certain of its bank balances, bank borrowings and corporate bonds are denominated in Hong Kong dollars which is not the functional currency of the relevant group entities. The Group has not made other arrangements to hedge against the exchange rate risk. However, the Directors and management will continue to monitor the Group's foreign exchange exposure and will consider utilizing applicable derivatives to hedge exchange risk if necessary.

TREASURY POLICIES

The Group adopts a conservative approach towards its treasury policies. The Group strives to reduce exposure to credit risk by performing ongoing credit evaluations of the financial conditions of its customers. To manage liquidity risk, the Directors and management will closely monitor the Group's liquidity position to ensure that the liquidity structure of the Group's assets, liabilities and commitments can meet its funding requirements.

EMPLOYEES AND REMUNERATION POLICIES

As at 30 June 2015, the Group had a total of 263 staff and 5 contractors (31 December 2014: 255 staff and 5 contractors). Total staff costs (including Directors' emoluments) were approximately RMB43.3 million for the six months ended 30 June 2015 (six months ended 30 June 2014: RMB36.4 million). Remuneration is determined by reference to market conditions and the performance, qualifications and experience of individual employees. Year-end bonuses based on individual performance will be paid to employees as recognition of and reward for their contributions. Other benefits include contributions to a statutory mandatory provident fund scheme and social insurance together with housing provident funds for its employees in Hong Kong and the PRC, respectively.

The Group operates a share option scheme for the purpose of providing incentives and rewards to eligible directors, employees and contractors of the Group, who contribute to the success of the Group's operations. Details of the Group's share option scheme are set out under the heading "Share Option Scheme" below.

	12 July 2013	11 December 2014	8 June 2015
Inputs into the model			
Exercise price	HK\$0.74	HK\$1.814	HK\$2.13
Expected volatility	67.71%	41.71%-42.35%	44.56%-49.47%

Risk-free rate	0.507%	0.43%-1.237%	0.479%-1.314%

Expected volatility of the options granted under the Share Option Scheme was determined by using the historical volatility of the share price of comparable companies and the Company respectively. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioral considerations.

The fair values of share options granted to business associates were measured at the fair value of the services received.

The Group recognised total expenses of approximately RMB19.3 million for the six months ended 30 June 2015 (Six months ended 30 June 2014: RMB2.6 million) in relation to the share options granted by the Company.
